PLEASE NOTE: *As the final document is presented for action by the Body during the 70th National Convention, it is critical that two points are understood. 1) By voting for the LRP, the Body/membership would not be encumbering AMVETS to spend any money that has not been raised. The adoption of the LRP would be to establish a direction to grow the organization. 2) It will not be a vote to adopt the monetary references in association with funds needed. The approved five year LRP would be reviewed annually and the objectives and costs associated for a specific year would be incorporated into the annual budget process.*
